No 52

Raymond Hi Lights

SPORT NOTES

Things have been happening so fast that we hardly know where to begin.

The game with Lethbridge a week ago marked the next to the last league game of the series. Lethbridge distinguished themselves by their sportsmanship. The High School supported the team with several ear-loads of students who attempted to out-cheer the L. C. I. In spite of bad roads and ear trouble everyone arrived home before daylight. In case you haven't heard, the score was 44-20 for Raymond.

Last Friday the team played an exhibition game in Taber. We didn't see the game but we guess that the trip over and back in a truck was a bigger experience than the game.

The score was 68-17 in favor of Ray.

ABOUT THE SCHOOL

The school is rejoiced at the return of our School Paper Editor, Oharlotte Knight, we hope she had a pleasant holiday.

WANTED—Willing talent to perform in Literary. Apply Grade X11.

WANTED—An automatic arithmetic checker. Apply S. E. Low.

Grade X1 have been sporting their purple and gold ribbons and now Grade 1X gaily wear purple and white ribbons—but after a few more battles over them we think they will also wear black and blue.

Incidentally we just added the scores our team has made in the six games it has played. The total is 261 points. Against us, other teams have made 109 points.

School reporter: "That's what I call rubbing it in."

Student: "What do you mean?"

School reporter: "I sent the editor two articles and he sent three back."

Grade X1 gave an interesting Literary last Friday, but the thoughts of the game at night was more to the point.

In spite of mud and icy roads more than half the school were in Magrath Friday night. After a hectic few hours we returned with, among other things; a victory for the girl's team, the Basketball Championship of Southern Alberta for the boy's team, and many hoarse voices for the students.

SPORT NOTES

After the most exciting game of the season, the High School Basketball Championship of the south was decided. The game was close and the outcome very uncertain to the end. Never since the High School played the Y Aces three years ago has there been such a demonstration from the High School students.

The girls game was a snappy preliminary and showed much improvement since they played in January. The final score was 21-24 in favor of Raymond.

The line up for the league game.

Total	26

The R. H. S. team has played seven games. Total score made 293. Total score made against them 137.

BURNED IN ALBERTA IN 1929

Edmonton, Jan. 31—It takes 30,208,495 gallons of gasoline to keep Alberta moving at its present rate, that being the consumption for the year just ended. The figure for 1930 will be larger.

Gasoline tax collections by the provincial government in 1929 amounted to \$2,148,418, made up of a three-cent levy on 18,100,305 gallons sold from January 1 to May 31, and five cents on 32,108,190 gallons sold from June 1, when the new tax went into effect to the end of the year.

In both consumption of gasoline and resulting revenue the year's bustness constitutes a record, being well in excess of any previous 12 month period. It is expected that when the figures are made up for the fiscal

"WHAT MAKES CANADIANS CANADIAN"

(Reprint from the Vancouver Sun, December 16, 1929)

Every time an American comes to Canada to live, his secret determination seems to be to try and make this country Yankee. Every time an Englishman comes to Canada to live, he wants to make this country English.

The resisting of these two opposing impulses is a good thing for this country, because it is what makes Canada Canadian. Canadian personality is welded out of the clash between English influences and American influences.

Canadians are able to realize that the American is going too fast. His rational scientific action, his business philosophy of make or break, and his restless business ambition tend to make a business machine which has created an astounding prosperity in the United States.

But have these things made Americans happier. Have they added to the richness and fullness of American life? Are the American standards of success based on true and lasting premises?

The Englishman, on the other hand is going too slow. 'His industrial philosophy is archaic. Maintaining a vast army of middlemen, he lets the workman do what the machine should be doing. He devotes his time to political philosophy and economic theories rather than to practical action. He is the source of big work talk and big political talk.

But the Englishman has a cultural setting and an aesthetic background that the American, as a class, lacks. Canada cannot afford to adopt either English or American method in their entirety. She must pick the best of each and apply them to her own peculiar problems.

And the sooner Americans and Englishmen in Canada realize this fact, the sooner they realize that this is CANADA, the sooner will they become good Canadians and make the going easier for themselves.

Meantime, the pressure from both sides is forming and building up a distinctive Canadian personality.

And that personality is an engaging and a hopeful one. Johnny Canuck is sitting here with 3,729,665 square miles, including some of the most productive soil in the world; sitting here with vast resources, with minerals. Including 95 per cent of the pre-Cambrian shield, containing the great ore deposits of the world; sitting here with a variety of climate unequalled in any other country on earth.

His vigorous Nordic temperament gives him the energy to develop his possibilities. His historic background gives him cultural appreciations. His achievements and his blood give him a pride and a determination, as he sits here on his fortune, not to be led by the nose this way or that, but to make a distinct and powerful personality for himself and for his country, CANADA.

Workman have been busy the past few days on the Second Ward Chapel.

The Raymond Motors had a nice new sign put up last week, and also some window sign work done.

Mrs. Bandley and to daughters arrived last week from Germany to join the husband who has been here about a year and a half. They are living on the J. U. Allred farm.

year ending March 31 next, the intervening three months under the higher tax will bring the total up to \$2,500,000, the figure now announced for a calendar year, of which only seven months was at the five-cent rate.

The operations from June to December will be taken as the basis on which the government's estimates for next year will be made up.—Calgary Herald.

Membership Drive On Now Good Roads Urged

The Annual Meeting of the Raymond Board of Trade was held at the Club Cafe on Wednesday, Feb. 12 at 2 p.m. with Pres T. O. King in the chair and 15 members present.

Quite a few members were in Lethbridge at the Board of Trade Luncheon there where the prizes for the Fifteen Ton Beet Club were awarded but on a motion from the floor it was decided to go ahead with the regular business of the annual meeting.

The Secretary's report was read and showed a good surplus in the bank, the receipts for the year being slightly larger than the disbursements.

Pres. T. O. King spoke of the far reaching effect of a Board of Trade, and urged every member to be a live booster. Reported several of the activities of the Board during the past year.

Election of officers was then proceeded with, T. O. King being elected Pres. for his third term, C. C. Watson Vice-Pres., and T. L. Halpin, Sec. for his third term. These results were followed by a prolonged round of applause.

The Executive Committee was elected as follows:—

Dr. Leech, O. S. Longman, T. G. Wood, R. G. Farnell, S. I. May and V. D. Mendenhall.

The Committee on membership are Grant Card, Byron Wall, Sheridan Schumers, Dr. Leech, W. D. Mendenhall and O. J. Rolfsen. The membership drive is now on with the aim at 150 members.

The correspondence was read and the following discussions and decisions grew out of it.

The Secretary was instructed to send our Membership Fee to join with the International chamber of Commerce.

Several letters were read relative to the Gravelled Road Situation and after some discussion in view of recent information received, it was decided to have the Board of Trade Committee on Roads meet with the Council of Sugar City M. D., and see if the necessary organization work could not be done, preparatory to gravelling our portion of the Secondary Highway from Lethbridge to Cardston.

Dr. Leech spoke in behalf of the G.W.V.A. and asked the support of the Board of Trade financially and otherwise in their Memorial undertaking. L. D. King and W. C. Stone were appointed as a committee to meet with the Vets. go over the plans in detail, and report back to the Board.

Mr. and Mrs. H. R. Dryner moved to Magrath last week to make their future home.

Mr. and Mrs. Clifford Gough entertained Mr. and Mrs. Maurice Cooper at dinner on Sunday.

A great many Raymond people were in Magrath on Sunday for Quarterly Conference.

Ben Peterson returned recently from Salt Lake, where he attended the funeral services of his mother. Mrs. Peterson was an old-timer here and very highly respected.

The Week at Edmonton

The Debate on the Speech from the throne has occupied practically the whole time during the first week of the session, only a few routine matters being disposed of.

In recent years some outcry has been raised against the "waste" of time so employed. Some legislatures attempted to shorten the debate, notably in Saskatchewan but without the best results.

Historically, the debate was used to demonstrate Parliament's independence of the king. Each session His Majesty was accustomed to send certain requests to his lawmakers. They listened respectfully but before getting down to the king's business they discussed diverse matters of importance to the people.

It is true that the Legislature no longer fears the domination of the King, but another power is now encroaching on its functions. Formerly legislation was initiated in Parliament and given to the Executive to administer. But more and more the Executive has come to propose cut-and-dried legislation which the legislature merely ratifies. The debate on the address gives the back-bencher a chance to make a more positive contribution to the government of the country. For a week he has a mind of his own and is more than a mere voting machine.

There are styles in speeches from the throne according to the political strategy of the party in power. The Liberals from 1905 to 1921 preferred a brief terse statement which referred to as much proposed legislation as possible but which was non-committal about why and how. This left nothing for the critics to attack; they had to be content with demanding explanations, which the government provided only when it was ready. The U. F. A. Government employs a different line of strategy. Mr. Brownlee's method is evidently to refer only to main lines of legislation. But these matters he treats in the king's speech, with considerable detail and the members are given a better idea of the government policy.

This type leaves certain omissions and it is for sins of omission that the government is attacked. The Labor member for Edson Chris Pattison seized upon such an opening in his demand for positive action on the question of unemployment. The problem is a national one for if one section does anything the unemployed flock thither. A major cause of unemployment is the unrestricted immigration a Federal matter and due to the Federal policy. The condition in the mining towns are serious because of over-development. Alberta's mines are organized for a peak demand for a short period each year. He suggested a survey of conditions each fall and some system of national provincial unemployment insurance.

The speech of the new Conservative leader D. M. Duggan was of interest as a statement of party policy. Mr. Duggan emphasized two main points: highways and tax reduction. He advocated an expenditure of \$25,000,000 on highways in the next five years the money to be employed against the current deficit. At the same time he retained a part of the supplementary revenue (1,166,900.00 in 1929), would retain a part of the surplus to the province. (This suggestion should lighten the hearts of municipal authorities in Alberta.) He touched on other points; he is generally in agreement on the Natural Resources settlement, but feels that some features are not in the best interests of the people; he favors the retention of the local school board for administration; and he believes that power is the great problem to be dealt with at present.

Mr. Hoadley replied, gently chiding Mr. Duggan for his inconsistency in asking great expenditures and at the same time demanding reduction in taxation and public debt.

Mr. Shaw, leader of the Liberals made his keynote speech on Wednesday.

Fascinating Links In Canada's History

Ottawa, Feb. 11; (Special to the Recorder) In the Notheliff collection at the Ottawa Archives, one of the collections which immediately attracts the eye and the mind of the visitor is the section of books which belonged to General Wolfe. These books were presented the Dominion Archives by Sir Leicester Harmsworth, as part of the Notheliff collection.

They are volumes which belonged to the library of General Wolfe when he was at Blackheath. Twenty four volumes in the collection were among the books bequeathed to Col. Guy Carleton by Wolfe's will, executed on board the Neptune June 8, 1759. They were taken to Quebec by Col. Carleton when he became Governor of Canada and some years later they were presented by him to Surgeon Major Connolly and through him found their way to Ireland.

Two of the volumes have the French arms on the sides and in the first volume there is a note in the handwriting of Guy Carleton, as follows: "I believe that these volumes were brought home to England by General Wolfe from Louisbourg in 1758, the gift of a distinguished French Officer." G. C.

Twenty two of the volumes have the autograph of Wolfe with the crest of the Wolfe family on the sides. Many of them contain notes and criticisms in the handwriting of the famous general. The bindings are all in a good state of preservation.

It is interesting to note that amongst the collection are books relating to warfare and the histories of nations. One book, which is exceptionally rare, is a history of the Civil War of France by Ellis Farnsworth. One volume of the Naval History of England in all its branches from the Norman conquest 1066-1734, by Thomas Leclerc, seems to have been thoroughly studied.

Among the interesting collection are Sully (Duc de) Memoires 1745; Feuguere (Lieut. Gen. le Marquis de) Memoirs, 1756; Soinville, (M. le Capt. l'infanterie) 1756 and Dictionnaire (Le Petit), 1746.

H. B. MACKENZIE
General Manager, Bank of Montreal

day. He attacked the Farmer party because of the great increase in taxation and debt since 1921. He was not inclined to give all the credit for the resources settlement to Mr. Brownlee and company; the Liberal government at Ottawa had done its share.

Mr. Shaw attacked the government on its weak policy in education. He demanded a Civil Service Act and the upward revision of salaries of civil servants.

The Liberal leader ended his speech by advising Mr. Speaker that he no longer resigned as leader of the Liberal party though he would continue as House Leader during the present session. The announcement caused no sensation as it had been officially known earlier. Mr. Brownlee rose immediately after Mr. Shaw to reply to the criticisms of the opposition leader. He showed the impossibility of reducing taxation at the present time especially when increased expenditures are demanded. Point by point he answered his opponents stating the govern-

(Continued on back page)

Civic Election Results

Monday was election day and a very busy one to. The poll opened at 10 a.m. and from then until they closed at 7 p.m. ears were going aither and yon bringing in the voters. Excitement ran high all day and the supporters of the various candidates were untiring in their labors; the candidates themselves watching the list pretty closely and bringing in a lot of voters.

Out of a possible 450 votes or thereabouts, 330 exercised the franchise which is the best vote on record considering the number of names on the list. A large number of ladies were not allowed to vote because of not having their names registered. It should be born in mind that in order to vote you must have your name registered each year unless you are paying taxes in your own name.

This is according to law and before the end of next October be sure and

inquire whether or not your name is registered then there will be no question about your voting.

The list of candidates offered plenty of choice and excitement was general regarding the outcome.

The final count showed as follows:

For Council:— W. H. Zobel, 206; Wm. Redd, 166; Wm. Parks, 161; Chas. Fawns, 144; A. W. Kirkham, 109; L. J. Mehew, 63; Rosecoe Larson, 51; the first three being declared elected.

For School Board:— T. O. King, 268; L. L. Paek, 189; Paul Dahl, 186; Mr. Aaron Ross, 128; Mrs. F. W. Leavitt, 109; T. K. Roberts 98; the first three elected.

Now that election is over and as ratepayers, we have expressed our desires, it becomes the duty of every loyal citizen to support the elected candidates and bury the political hatchet.

Will Build Memorial Here

The Raymond War Veterans met last Sunday afternoon in the Town office; there being eleven members present. The purpose of the meeting was to discuss the erection of the War Memorial that has been mooted for some time.

It was finally decided that the cash objective or the memorial fund would be launched starting on Feb. 10th, and lasting until March 1st. Entertainment, dances, etc., will be one means of reaching the objective and a volunteer subscription list will be posed in some prominent place. The names of all subscribers will be published weekly in the local press.

We feel that this memorial is a worthy one and is our way of express-

ing our esteem and love for our comrades that paid the supreme sacrifice in Flanders Fields.

The torch is ours; we'll hold it high, or thus "Break faith with those who died, in Flanders Field."

The War memorial committees appointed are as follows: Comrade Dr. Leech (President) on all committees.

Finance Committee: Comrades, S. Dyson, P. Cope, and W. Meldrum.

Building Committee: Comrades T. Roberts and C. Strong.

Property Committee: Comrades C. Mehew A. Coombs, and D. Gibet.

The first mentioned being the chair man in each case.

GRAVELLED ROAD

The question of better roads is one that takes hold of almost every community in Canada. Our problems are in common with the problems faced by most of the districts, and will have to be met in a manner that will bring to us the greatest good at the least cost, as taxation has become somewhat burdensome during the last ten years owing to the immense costs entailed in helping to care for dependent individuals, main highways, etc.

It has been the hope of most of us that a Gravelled highway would come to us connecting us with Lethbridge, Cardston and Craddock, so that we might go in either direction in all kinds of weather. To this end, petitions were sent asking that an enlarged Municipal District be created, by adding to the Sugar City M. D. No. 37, the area to the West embraced in L.I.D. No. 38 and the three Townships immediately lying to the North boundary and the one township embracing Lethbridge to the end that there be no missing links in the Secondary Highway.

It now looks as if, through some application on the part of land owners on our north, that these Townships will be added to Sugar City. From the action of the Sugar City Council it also looks as though the matter with L.I.D. No. 38 might be deferred, yet that doesn't mean it necessarily follows that there will be no uniting of the Districts at any later date.

M. L. A. George Stringham has communicated the news to us, that the L.I.D. No. 67 is now about to organize and that if Sugar City desires to complete the six miles of road near Welling to the correction line at the North end of our District to the point where the Welling-Lethbridge road join, and get to Lethbridge that way, that the Minister of Public Works is quite ready to place that Road as a Secondary Highway, and that the Department will have the franchise of the L.I.D. No. 67 include the Road from where we join the District at Welling as a Secondary Highway, with the obligation to build that road at any time we are prepared to build our road. Further—that the same will apply to Magrath for about ten miles of Secondary Highway, however, Mr. Stringham strongly recommends that we get together, and that Sugar City and L. I. D. No. 38 join on the whole plan of Secondary road work, which shall include our roads to connect with Cardston, Lethbridge and Craddock, which could be handled with less expense, and more quickly, if we were managed under one head.

The present outlook, however, would not lead to the belief that more than the preliminary work will be done this year, but if we will get behind the move, and really desire such a road, the Department are willing and anxious to meet our desires.

If we are in earnest, let us show it. If we desire roads, we must pay for them. Better roads will cost more money, but a Secondary Highway, if once completed and turned over to the Government, will, so far as the Local District is concerned, eliminate much present expense that is now required to even keep main roads passable. In the end, the Secondary Highway might cost less. Think it over.

NEW DAYTON SCHOLAR WINS HONORS

Fred Morris, son of Mr. and Mrs. Alfred Morris, and a pupil of the Troy School District, near New Dayton, passed his Grade VIII Examinations with honors, and received a very nice set of "The Book of Golden Deeds" in seven volumes, handsomely bound in leather.

This is good news and we congratulate Fred on his achievements. We will not comment further as the following letter from the Department of Education is self explanatory:

Edmonton, Dec. 30, 1929

Dear Fred:—

The Department of Education has learned with pleasure that you were successful in securing the highest standing in your School Fair Association in the Industrial Art, Penmanship, Elementary Science and Geography Exhibits. We are glad to know that you not only have the ability to do work of this quality but are sufficiently interested to do the extra work necessary to make such an exhibit.

A prize is offered by this Department

ment annually for the student taking first place in this competition. We are pleased to know that you have been declared the winner of this prize for the year 1929.

Under separate cover there is going forward to you a parcel of books which we hope you will enjoy and which in years to come may serve to remind you of pleasant days spent in an Alberta School.

Yours very truly,

G. Fred McNally,
Supervisor of Schools.

News Notes

The Supreme Court of Canada has handed down a decision in favor of the Knight Sugar Co. in its case with W. B. Webster of Long Beach on a land deal.

There will be a "Monarch Range" demonstration at the Raymond Merc. next week. If you are not acquainted with the Monarch Malleable Range it will pay you to become acquainted.

CALGARY SPRING STOCK SHOWS

The Prize Lists of the Calgary Spring Live Stock Shows and Sales have been issued by the Alberta Live Stock Associations, and copies may be had from the Secretary and Managing Director, E. L. Richardson, Calgary.

The publication contains the Horse Show Prize List the Fat Stock Classes and the Rules for Girls and Boys Baby Beef Competition.

In addition there are the Rules and Regulations for the thirtieth Annual Auction Sale and Show of Purebred Bulls.

The dates of the combined Shows and Sales are March 31st to April 5. The Horse Show will be held Wednesday to Saturday, April 2nd to 5th, and entries must be made by March 21st.

In the Fat Cattle section, the earlots and pens will be judged on Monday, March 31st, and sold at auction the same day.

The individual classes will be judged and sold the following day. On the same day April 1st, the Baby Beef Competition will be judged. The feeding period for this competition dates from February 15th, and any girl or boy desiring to compete should send at once for an entry form which will give full particulars.

A new regulation this year is that the champion Baby Beef Steer and champion Baby Beef Heifer must be entered for the Fat Stock Sale and sold without reserve for immediate delivery. Other Baby Beef animals may be sold or not at the option of owner.

Entries for both Fat Stock and Baby Beef classes must be made on or before March 21st.

Breeders of hulls intended for the Bull Sale are reminded that entries must be in by March 1st, in order that a catalogue may be compiled and published for distribution amongst prospective buyers.

As the directors have decided to hold a second sale in May this year, breeders should bear this in mind when making entries.

Attention is drawn to the Girls and Boys Yearling Competition for Draught Colt, Filly or Gelding of 1929, in which the prizes total \$100., and there is a \$5 consolation for every exhibitor not in the prize money. In connection with this class, the Clydesdale Horse Association of Canada offers six liberal money prizes totalling \$68.00 for the six best yearlings sired by Clydes, and the Percheron Horse Breeders' Association offers \$150.00 in twelve prizes for the twelve best yearlings sired by Percheron Stallions. This splendid encouragement for the girls and boys will undoubtedly bring out strong classes.

An Acknowledgement

I thank my many friends for the support given me in the recent School Election.

I also appreciate the fact that my campaign was carried on in a dignified manner—free from jockeying, offensive personalities and misrepresentations.

much time and thought in working out unique and beautiful color schemes, decorations and attractive ways of serving their dinners. We all regret that there are not more second year girls in order that we might continue to enjoy their excellent meals until the close of school. Miss Redig will be in Taber Saturday where she is giving an address on "Household Administration."

The John Deere Tractor School, Thursday of last week was very educational to the 60 farmers who attended. Lectures and charts occupied the forenoon at the Capitol, and at King Motors in the afternoon. Mr. Davidson the mechanic dismantled a John Deere Tractor and explained in detail all of the working parts and the function of each.

Reed Wilde and A. Erickson ordered John Deere Tractors for Spring Delivery from T. A. Spackman, local John Deere Agent.

Born to Mr. and Mrs. E. Flexhaug, a daughter at the home of Mrs. Boyson on Mon., Feb. 10. Mother and daughter are doing fine.

Mr. and Mrs. T. Geo. Wood returned from Utah on Tuesday evening after a very pleasant trip, combining business and pleasure.

DID YOU EVER STOP TO THINK

Edson R. Waite

That the advancement of your city is first in the minds of your boosters. That they are ready to lend you their assistance in leading it forward in a great movement of development, progress and prosperity.

That they believe in cooperation and practice what they preach.

That by indulging in normal business transactions they bring normal business conditions.

That they are always filled with a spirit of "live and let live."

That they are REAL BOOSTERS. Boosters are always builders.

That no hand can stop the March of Development as long as your boosters are boosting.

That your boosters realize that your city is on the tide and will ride rapidly forward on the topmost wave.

That the people who have faith in your city are boosters. You should have faith and show it by cooperating with them.

That there will be an advance in progress of your city even beyond the expectation of the far-sighted booster.

You can make it advance faster by your cooperation.

YOUR CITY WILL GROW BECAUSE OF THE UNITED EFFORTS OF EVERY CITIZEN IN BOOSTING AND ENCOURAGING BETTER BUSINESS.

The Mysterious Island

A film voyage in the world's first submarine to the bottom of the sea and back.

The most fascinating fantasy ever filmed.

The fascinating natural color film story of the world's most unique adventure.

Capitol Theatre Re-opening Monday and Tuesday.

Union Jacks Win Over Great Falls

Playing before a full house on Thursday evening at the Opera House, the "Cascade Electrics," city champions of Great Falls, lost to Raymond by a 28-50 score. The visitors were at a disadvantage being on a strange floor, playing under slightly different rules and the game following a hard game in Great Falls the night before and a full day of travelling. They were good sports, and showed some brilliant bursts of speed and combination, but did not have the smooth passing and team work that characterizes the "Jacks" playing.

Ken Stone and Earl Zemp had the whistles and checked closely fouling and running with the ball, so that the game was free from arguments and both teams felt fine about the outcome.

Tonight the "Electrics" play the Aces in Lethbridge and the "Jacks" journey to Cardston for a league game, and next Wednesday the "Aces" will be here for a league game and the Jacks will be out to win. It will be a game worth watching and you will be sorry if you don't see it. Feb. 19th.

Lineup and points were:—

Great Falls	Raymond
Hober 17	H. Fairbanks 10
Roberson 3	Medrum 2
Knutson 2	Nalder 2
C. Smith 2	R. Fairbank 16
D. Smith 2	Hague 10
Nett 1	Lund 2
Johnson 3	Nilsson 0
Total 28	50

The preliminary was between the Stirling Intermediates and the Aggies and was a good game, the Stirling team winning by a 43-22 score.

A dance followed the games the Karolien Kids dispensing the Jazz.

SCOUT COUNCIL RE-ORGANIZED

At a very enthusiastic meeting held Monday afternoon last at the home of T. W. Meldrum, the Local Scout Council was re-organized under the direction of E. J. Fawns, District Scout Commissioner.

Wilford A. Heninger was reluctantly released with a vote of thanks for his past labors, and Mrs. M. W. Boyson was released as Secretary and immediately sustained. The other officers are:—

President—S. L. May.
Vice Presidents—L. J. Mehew and A. W. Jones.

Executive Committee—T. W. Meldrum, H. Fairbanks, Wm. Redd, W. A. Heninger and Paul Redd.

The first object will be registration of every Boy Scout with the Provincial Council.

Jos. T. Shaw, Alberta Liberal leader has tendered his resignation as leader of the party. Speculation has it that Geo. H. Webster M.L.A. of Calgary will succeed to the leadership.

APPRECIATION

On behalf of the Committee, we desire to express our appreciation for the assistance we received in every way in putting over our Annual Old Folks Banquet and Party and Married Folks Dance.

Employees in brokerage and stock promotion offices are being released with the abandon of Christmas Eve in a departmental store. Eventually, of course, no legitimate valuation of a security will be affected but in the interval the mushroom crop of millionaires is in the doldrums; the promotion business is terrible and even the bond salesmen are having a hard time to buy gasoline.

What nature new protective legislation will take is problematical, but undoubtedly some effort will be made to protect the gullible against avarice.

OLD FOLKS ENJOY DAY

Wednesday was Old Folks Day in Raymond and they were royally entertained by the Committee. 123 Old Folks and 35 Committee members and helpers partook of the Banquet at 1:30.

During the afternoon the Old Folks danced for awhile and then the drama "Apple Sauce" was presented and thoroughly enjoyed by them all. This play will be presented in New Dayton, Warner, Milk River and Coultis in the near future, and probably another showing here.

In the evening the big Opera House was filled with Married Folks who thoroughly enjoyed the evening. Space and time prevent any further details.

L. L. Pack is driving a new "77" Chrysler.

The outside work on Magrath's 1st Ward Chapel is nearly finished and this building will make a splendid addition to the town's public buildings.

HORTON FEATURED IN VITAPHONE HIT, "THE HOTTENTOT"

Could you win a dangerous steeple chase if you had never ridden before? Edward Everett Horton, heading the all-star cast of Warner Bros. latest all-talking Vitaphone production, The Hottentot, does just that.

the love of a young lady.

In addition to Edward Everett Horton and Patsy Ruth Miller, the star cast of "The Hottentot" includes Edmund Breese, Edward Earle, Stanley Taylor, Otto Hoffman, Douglas Gerard, Maude Turner Gordon and others. Harvey Thew prepared the Vitaphone adaptation of this popular stage play by Victor Mapes and William Collier which was one of the most successful footlight comedies of recent years. Roy Del Ruth directed. Tonight and Saturday.

ment position.

Outstanding among a number of thoughtful speeches was that of Mr. Hector Lang (Lib., Medicine Hat) on the Baker School Bill. Mr. Lang will probably be the leading critic on education this session as he was last session. The rural schools must be improved but this can best be done by increased supervision and by a province-wide salary schedule. He is in favor of tax equalization but Baker Bill gives too much power to the Department of Education.

The members for High River (Mr. Sam Brown) gave the paraphernalia of the city dailies a chance to make merry when he suggested that provision should be made to prevent oil companies from erecting derricks in the farmer's front yard. Perhaps there is more to the request than the clever boys think.

In the meantime, the probable election is not being forgotten. An executive meeting of the Liberals has taken preliminary steps to call a Provincial Convention to choose a successor to Mr. Shaw. Since Mr. G. H. Webster was present, the wise ones say that he will be the next leader.

The Wheat Pool may be an issue but the united stand of the three Western premiers in guaranteeing the 15 p.c. margin will undoubtedly strengthen Mr. Brownlee's position.

What part in the return of the natural resources may play is problematical. It is to be hoped that the sectarian issue so bitter when the province was organized (1905) will not be revived at this time.

Some opposition to an early election has been heard among the U. F. A. members. Attention has been called to the plank in the U. F. A. platform (1921) which requires a Farmer Government to carry on for the full legal duration of Parliament.

Though individual members may fear for their seats it is hardly probable that the government can be overturned. The best the opposition can hope for is to reduce the U. F. A. majority.

The School Trustees are in session in Calgary. Mr. Baker appeared and

defended his new bill. The opposition is not so great apparently as that evoked last year but the Trustees are not yet ready to give up the powers of the local school boards.

The Prohibitionists have just concluded a successful convention in Edmonton. For some time now the cause has been reviving as shown by the vigorous street car advertising campaign. To their deputation, Mr. Brownlee said that though there is a dry majority in the legislature, prohibition legislation cannot be passed till the public opinion crystallizes in favor of it. He suggested that a campaign of education would be effective in restricting the traffic.

The final report on Alberta's railways covering the first six months of 1929 showed considerable improvement.

Operating profit on all four lines; the Edmonton, Dunvegan, and British Columbia; the Alberta and Great Waterways; the Central Canada; and the Pembina Valley amounted to \$285,984, though the latter pair lost money. However, there is still the interest on their funded debt making a net deficit of \$612,171.

The legislature of Saskatchewan was formally opened on Thursday, Feb. 7 with the Liberals in opposition for the first time in the history of the province. Natural resources was indicated as a leading subject in the speech from the throne.
